Part B: Comments for the Institution on the Examination Process and Standards**Matters for Urgent Attention**

If there are any areas which you think require urgent attention before the programme is offered again please note them in this box

None

Only applicable in first year of appointment

Were you provided with copies of previous relevant External Examiners' reports and the response of the School to these?

N/A

For Examiners completing their term of appointment

Please comment on your experience of the programme(s) over the period of your appointment, remarking in particular on changes from year to year and the progressive development and enhancement of the learning and teaching provision, on standards achieved, on marking and assessment and the procedures of the School

Standards

- 1. Please indicate the extent to which the programme Aims and Intended Learning Outcomes (ILOs) were commensurate with the level of the award**
 - *The appropriateness of the Intended Learning Outcomes for the programme(s)/modules and of the structure and content of the programme(s);*
 - *The extent to which standards are appropriate for the award or award element under consideration.*

The learning outcomes, structure and content of all the modules and relevant programmes were commensurate for Masters level awards
- 2. Did the Aims and ILOs meet the expectations of the national subject benchmark (where relevant)?**
 - *The comparability of the programme(s) with similar programme(s) at other institutions and against national benchmarks and the Framework for Higher Education Qualifications.*

In my view the modules and programmes fully met national benchmarks for comparable programmes with which I am familiar as well as meeting standards set by nationally recognised accrediting bodies such as the Chartered Institute of Personnel Development (CIPD)
- 3. Please comment on the assessment methods and the appropriateness of these to the ILOs**
 - *The design and structure of the assessment methods, and the arrangements for the marking of modules and the classification of awards;*
 - *The quality of teaching, learning and assessment methods that may be indicated by student performance.*

As in the previous year there was a good range of appropriate and challenging assessments which reflected different pedagogical approaches and learning styles, suggesting that teaching quality was of a very good standard
- 4. Were students given adequate opportunity to demonstrate their achievement of the Aims and ILOs?**
 - *The academic standards demonstrated by the students and, where possible, their performance in relation to students on comparable courses;*
 - *The strengths and weaknesses of the students as a cohort.*

The academic standards that were achieved by students were of a very good general standard, a good number of high performing candidates also emerged across the modules under consideration.
- 5. For Examiners responsible for programmes that include clinical practice components, please comment on the learning and assessment of practice components of the curriculum**

N/A
- 6. Please comment on the nature and effectiveness of enhancements to the programme(s) and modules since the previous year**

It would be particularly helpful if you could also identify areas of good practice which are worthy of wider dissemination.

None
- 7. Please comment on the influence of research on the curriculum and learning and teaching**

This may include examples of curriculum design informed by current research in the subject; practice informed by research; students undertaking research.

Most of the faculty involved in the modules under review are leading researchers in their respective fields and there seems little doubt that this enhances the quality of the teaching and learning experience for students. All the modules I considered benefitted from the input of research active staff.
- 8. Where the programme forms part of an Integrated PhD, please comment on the appropriateness of the programme as training for a PhD**

N/A

For Examiners involved in mentoring arrangements

- 9. If you have acted as a mentor to a new External Examiner or have received mentor support please comment here on the arrangements**

The coherence of the policies and procedures relating to External Examiners and whether they match the explicit roles they are asked to perform.

Yes all the necessary materials were provided

Other comments

Please use this box if you wish to make any further comments not covered elsewhere on the form

This is my second year as External examiner at Leeds. As in the previous year I was very satisfied with the range of modules across the post-graduate programmes I examined. The quality of the modules and teaching was of a very good standard and is at the level I would expect to see for a leading business school.
