Points of innovation and/or good practice

Please highlight areas of innovation or good practice within the programmes or processes you have been involved with in this box.

In relation to good practice, **I would wish to once again commend the programme team on the high standard of knowledge and expertise available to students in all the taught modules. This is exemplary in nature.**

I would also like to highlight once again the quality of the extensive feedback given to students as they progress through the programme. This is of a consistently high quality and allows students to be made aware of ways to improve their knowledge and understanding of the subject in addition to improvement of their academic skills. Additionally, I would highlight the effective moderation processes conducted by the teaching team which ensures consistency in grades including the decision to make the marking team for the thesis a small one to ensure maximum consistency in approach.

Enhancements made from the previous year

Please highlight any enhancements made to the programme(s) or processes over the past year in this box.

The team are obviously pro-active in reflecting on provision and engaging in a continual process of amendment to the teaching materials to ensure that they are of the highest quality.

7.	Have you acted as an External Examiner Mentor?	N/A

Please comment on your experience of the programme(s) over the period of your appointment, remarking in particular on changes from year to year and the progressive development and enhancement of the learning and teaching provision, on standards achieved, on marking and assessment and the procedures of the School

Standards

8.	Is the overall programme structure coherent and appropriate for the level of study?	Y
9.	Does the programme structure allow the programme aims and intended learning outcomes to be met?	Y
10.	Are the programme aims and intended learning outcomes commensurate with the level of award?	Y
11.	Did the Aims and ILOs meet the expectations of the national subject benchmark (where relevant)?	Y
12.	Is the programme(s) comparable with similar programmes at other institutions?	Y

Please use this box to explain your overall impression of the programme structure, design, aims and intended learning outcomes.

My overall impression of the programme continues to be that it well designed to meet the ILOs. The taught modules build the knowledge and understanding of various key elements of SEN which then supports the students as they complete their thesis focusing on a specific element of SEN which is of interest to them.

13.	Is the influence of research on the curriculum and learning and teaching clear?	Y
-----	---	---

Please explain how this is/could be achieved (examples might include: curriculum design informed by current research in the subject; practice informed by research; students undertaking research)

The teaching and learning within the course continues to be clearly informed by the peer-reviewed SEN academic literature; both classic literature of the past and more recent literature which ensures that the students are informed of changes in the understanding of SEN and interventions which might support young people following diagnosis.

14.	Does the programme form part of an Integrated PhD?	N
-----	--	---

Please comment on the appropriateness of the programme as training for a PhD:

15.	Does the programme include clinical practice components?	N
-----	--	---

Please comment on the learning and assessment of practice components of the curriculum here:

16.	Is the programme accredited by a Professional or Statutory Regulatory Body (PSRB)?	N
-----	--	---

Please comment on the value of, and the programme's ability to meet, PSRB requirements here:

Assessment and Feedback

17.	Does the programme design clearly align intended learning outcomes with assessment?	Y
<p><i>Please comment on the assessment methods and the appropriateness of these to the ILOs, in particular: the design and structure of the assessment methods, and the arrangements for the marking of modules and the classification of awards; the quality of teaching, learning and assessment methods that may be indicated by student performance.</i></p> <p>The programme design continues to facilitate a clear alignment between ILOs and the assessment methods. The assessment marks achieved by students are comparable with other institutions offering these programmes and courses and I was pleased to note that the full range of marks were awarded by all markers when appropriate. As mentioned in previous report and again on this occasion, I would wish to comment on the consistently high standard of feedback by all the programme team to students. I would also wish to commend the team on the quality and diversity of the questions set at modular level to account for the individual interests of the students and the opportunity for students to receive formative feedback prior to final submission of assessments.</p>		
18.	Is the design and structure of the assessment methods appropriate to the level of award?	Y
19.	Were students given adequate opportunity to demonstrate their achievement of the programme aims and intended learning outcomes?	Y
<p><i>Please comment on the academic standards demonstrated by the students and, where possible, their performance in relation to students on comparable courses; the strengths and weaknesses of the students as a cohort:</i></p> <p>The design and structure of all assessments is appropriate to the level of the award and permits the students to demonstrate their enhanced knowledge and understanding.</p>		
<p><i>Please use this box to provide any additional comments you would like to make in relation to assessment and feedback:</i></p>
